**About Fietzersbond**

Fietzersbond is the national bicycle advocacy league in the Netherlands.

In Amsterdam, Fietzersbond has some 40 years experience in design, policy and lobbying for cyclists.

Through the years Fietzersbond has played an important role in the realisation of bicycle facilities and bike friendly traffic policy for the city.

And it still does: tackling difficult bottlenecks for cyclists, preserving the good facilities we have and raising awareness for new threats such as the rising numbers of scooters and the lack of (dedicated) parking space.

The bicycle excursions are staged by Fietzersbond's Projektburo. This organisation realizes projects for Fietzersbond that are outside the scope of the regular work of Fietzersbond. Examples are signposting for cyclists and the creation of our famous bicycle maps.
